

In this tutorial I'll guide you through the process of uploading and submitting your new Twitch badges with 10 easy steps. Let's get to it

You can at any given moment on Twitch.tv access the menu by pressing your avatar at right top corner. This is how the front page of my channel looks like

At your Dashboard you should see all the different options on the left

Click Settings on the list and a dropdown menu appears. Select the bottom option Affliate

We're now at the page with everything related to your affiliate status. The list continues under Adfree viewing but it's not relevant for the tutorial. Under **Subscriptions** you will find **Loyalty Badges** as the **3**<sup>rd</sup> option on the list. This is where you set your Twitch badges
