

Character Collab Swap Challenge

Thank you so much for the interest in the challenge! ❤️

Art can be very hard to tackle alone so drawing with others can make all the difference. It's one of the many reasons why I created it.

In this .zip-folder you'll find both a .clip and a .pds document while also a classic .png version if you'd prefer to use that instead.

The .clip and .pds contains the following:

TEXT FOLDER

This is where all text is collected. Feel free change the font and hide my credit if you like.

FRAMES FOLDER

Plain and simple the outer square lines 😊

BOXES FOLDER

I always find it easier to work on grey during the process while I like to give my challenges a background. You're free to either hide or delete them if you prefer it white.

1. Sketch the character of your choice in all fields – can be OC, fanart etc.
Only add hair/ hairstyles to your character, nothing else.
2. This is the fun part! Hand it to your collab artist for them to draw the clothes. Don't tell them how they usually dress. How far or close are they?
3. This step is optional. You can either swap back for lines and colouring or let your collab artist finish the job.

I hope you'll have fun with it ❤️
